

# Square & Rectangular Copper Tubing Coils

## Premier Square and Rectangular Copper Coils Supplier

Webco supplies square and rectangular copper coils in standard 50 ft. and custom lengths to meet specific, shorter length requirements for customers who require flexibility, consistency, and reliable delivery. Individually packaged and boxed for quick shipping, our copper coils are available today. Square and rectangular copper coils are manufactured to ASTM B75, Grade C122, in soft temper. Copper is widely used across industries due to its high resistance to corrosion and dependable performance.

### Copper Markets & Applications

Webco square and rectangular copper coils are used across a broad range of industries where corrosion resistance, reliability, and performance are critical:

- Food & Beverage
- HVAC
- Industrial
- Electrical
